

KEEPING OUR CHILDREN SAFE AT CAMP

KE Camps is committed to creating a safe and healthy environment for all campers, families, and staff. Please see below for details on enhanced precautions being implemented at camp this summer.

HEALTH SCREENINGS AND TEMPERATURE CHECKS

Upon arrival, your camper will be visually screened to check for signs of illness including coughing, sneezing, difficulty breathing or any other flu-like symptom. In addition, each camper will be given a non-contact temperature check. Should anyone have a temperature reading of 100.4 or higher or be exhibiting any visual signs of illness, he or she will be asked to return home and will not be allowed entry into camp.

INCREASED HANDWASHING

Campers and Staff will be doing extra handwashing and sanitizing this summer! Handwashing will occur upon entry to camp, before and after every snack and meal, after using the restroom, after activity periods (as needed), and upon checking-out of camp.

SMALL CAMP GROUP

We are lucky in that our camp is already very small in size! Our camp will function as its own family unit each week. Within our camp family, we will do our best to adjust activities and schedules so that we maintain space between campers and staff as much as possible. Please understand that with a group of young children, social distancing will not be possible 100% of the time. When our staff need to get within 6 feet of our campers (think: tying shoes or assisting with sunscreen), they will put on a friendly mask/bandana. We will keep as much physical distance as possible between our camp family and other club personnel/patrons.

DROP-OFF AND PICK-UP

In an effort to keep our camp space limited to only our camp family (as much as possible), drop-off and pick-up procedures will be adjusted so that parents will not actually enter our camp space. This may result in our staff greeting your child at your car or the camp check-in area being moved outside or to an open hallway or lobby. Details on your particular check-in and check-out procedures will be provided to you in the weekly welcome emails sent from our office.

EXTRA CLEANING

Your club has already adjusted their cleaning procedures in and around the facility to ensure that surfaces are cleaned and sanitized to a much greater degree than normal. In addition to this extra safety measure, our staff will be wiping down frequently used surfaces and supplies throughout the camp day.

PROGRAM ADJUSTMENTS

Our activity and program schedule will be adjusted to include as many outdoor activities as possible (even more so than usual!). With that will be even more attention to sunscreen and water throughout the day.
